Sponsored by Teijin Aramid B.V.

11.15 » 12.00

ULD and The Environment

From both a regulatory and an ethical standpoint we must all respect environmental challenges. And with more composite and other advanced materials being used the challenges of dealing with « end of life » ULD is increasing. What can be done to minimize the ULD community's environmental footprint?

12.00 » 12.45

ULD CARE's IULDUG System

The IULUG system is where it all started, and 40+ years on the system continues to provide our members the certainty they need when they transfer ULD between themselves. Our membership includes « power users » and novices, so this session serves to re introduce the features and benefits of the IULDUG system.
